

EXCELLENCE THROUGH PERFECTION

Manufacturers and Suppliers of

- Non Critical Medical Compounds
- High Quality Soft & Rigid PVC Compounds
- General PVC Compounds
- Speciality Cable Compounds

 **iKare**
POLYALLOYS
Excellence Through Perfection

I-Kare Polyalloys is engaged in manufacturing various types of PVC compounds, including Soft Transparent PVC Compounds, General Compounds, various Rigid PVC Compounds, CPVC compound, Cable compound & much more. We are a diversified material manufacturing company with well-equipped technologies to serve the market.

We are committed to produce high quality product with repeatability and uniformity to meet customer's requirements. We strive for long term rewarding relationship with our customers, employees and suppliers that facilitate collaboration across industries.

NON CRITICAL MEDICAL COMPOUNDS

We manufacture Non Critical Medical Compounds from hardness varying from 45 shore - to 90 shore - A for Injection Moulding and Extrusion applications.

We also manufacture DEHP Free compounds

Our compounds are tested and complies with USP/ISO 3826 Standards.

SPECIALITY CABLE COMPOUNDS

- FL-R/Y/B Compounds for auto wiring
- FRLS/FR Compounds
- NBR Blend PVC Compounds
- Heat Resistant Insulations of 85°C & 105°C
- High Line Speed Skin compounds (Line Speed above 700m/min)

SOFT PVC COMPOUNDS FOR GENERAL APPLICATION

We manufacture Soft PVC Compounds for general application for transparent & opaque applications for hardness varying from 45 Shore-A to 90 Shore-A.

RIGID PVC COMPOUNDS

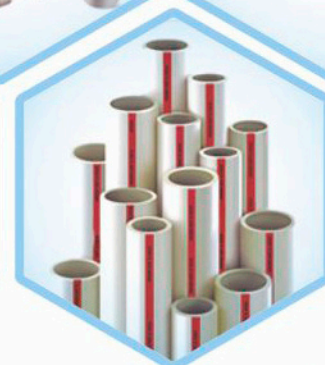

We manufacture Rigid PVC compounds for

- Connectors and Tubes for Medical Application
- Furniture Edge Bands
- Bottles
- Screwdriver Handle Compound

ELASTOMERIC COMPOUNDS

We supply Elastomeric Compounds to produce Syringe Gaskets, Pen Grippers and Tailor made TPEs for Injection Moulding applications.

CPVC COMPOUNDS

We manufacture CPVC Compounds for Pipes and Fittings.

We also manufacture tailor made PVC compounds as per customer specifications and requirements.

Services

The landscape of material science has drastically transformed in last few decades and the transformation speed supported by information technology has scaled new heights.

We at i-Kare Polyalloys strongly believe in innovation and continuously invest our time & resource in collating comprehensive information

database of new search & developments in the industry. This enables us to better understand our products and new market trends & demands in national & international markets. We extend this information to our clients on need-to-serve basis and support new product development & innovation of client's end products.

i-Kare is a customer centric company and strongly focuses on client's requirements and are willing to extend all support for your developmental strategies.

Excellence Through Perfection

An ISO 9001:2015 Certified Company by TUV RHIENLAND.
